Introduction

I am currently studying JAMstack Frontend Web Development with The Coders Guild and I've been retaining myself within web development for the past year. I have over 16 years of work experience in the charity sector, managing youth projects and leading teams. For the past four years I have been self-employed as an events coordinator, working with a large international charity, leasing with marketing and engagement teams. I have gained many soft skills and strengths that would benefit many companies and teams. I would describe myself as approachable, friendly & easy to get along with. I'm a creative problem solver that thrives with new challenges and stays calm under pressure. I have a great desire to keep learning, developing and growing both as a person and professionally.

Skills

Primary Web Technologies: HTML5, CSS3, JavaScript, SCSS/SASS, JQuery, Bootstrap4, Git, Github, Eleventy, Nunjucks, API's.

Secondary Web Technologies: React.js, Node.js, Express.js.
